RE: PARTNERSHIP BETWEEN MIKOKO INITIATIVE CBO AND CERTIFIED CARBON CREDITS LIMITED (CCCL)

Certified Carbon Credits Limited (CCCL), a global leader in carbon offset solutions, is excited to announce a groundbreaking 20-year agreement with Kenya's Mikoko Initiative C.B.O. This historic accord, set to manage a minimum of 1,000,000 tonnes of carbon credits per year, focuses on blue carbon credits, emphasizing mangrove and other forest projects in Kenya.

The Agreement: A Milestone in Carbon Credit Management

Under the agreement, CCCL will purchase certified carbon credits from the Mikoko Initiative's mangrove restoration projects. This collaboration represents a significant step towards environmental sustainability, aligning with both organizations' commitment to combating climate change and supporting biodiversity.

Yours faithfully,

Hon. Owen Yaa Baya

Deputy Majority Leader National Assembly of Kenya

And Member of National Assembly
